## Contents

*List of contributors*  

1  **An Introduction to Description Logics**  

   *D. Nardi, R. J. Brachman*  

   1.1 Introduction  
   1.2 From networks to Description Logics  
   1.3 Knowledge representation in Description Logics  
   1.4 From theory to practice: Description Logics systems  
   1.5 Applications developed with Description Logics systems  
   1.6 Extensions of Description Logics  
   1.7 Relationship to other fields of Computer Science  
   1.8 Conclusion  

**Part one: Theory**  

2  **Basic Description Logics**  

   *F. Baader, W. Nutt*  

   2.1 Introduction  
   2.2 Definition of the basic formalism  
   2.3 Reasoning algorithms  
   2.4 Language extensions  

3  **Complexity of Reasoning**  

   *F. M. Donini*  

   3.1 Introduction  
   3.2 OR-branching: finding a model  
   3.3 AND-branching: finding a clash  
   3.4 Combining sources of complexity  
   3.5 Reasoning in the presence of axioms  
   3.6 Undecidability  
   3.7 Reasoning about individuals in ABoxes  
   3.8 Discussion  
   3.9 A list of complexity results for subsumption and satisfiability
## Contents

4 Relationships with other Formalisms  
*U. Sattler, D. Calvanese, R. Molitor*  
4.1 AI knowledge representation formalisms  
4.2 Logical formalisms  
4.3 Database models

5 Expressive Description Logics  
*D. Calvanese, G. De Giacomo*  
5.1 Introduction  
5.2 Correspondence between Description Logics and Propositional Dynamic Logics  
5.3 Functional restrictions  
5.4 Qualified number restrictions  
5.5 Objects  
5.6 Fixpoint constructs  
5.7 Relations of arbitrary arity  
5.8 Finite model reasoning  
5.9 Undecidability results

6 Extensions to Description Logics  
*F. Baader, R. Küsters, F. Wolter*  
6.1 Introduction  
6.2 Language extensions  
6.3 Non-standard inference problems

Part two: Implementation

7 From Description Logic Provers to Knowledge Representation Systems  
*D. L. McGuinness, P. F. Patel-Schneider*  
7.1 Introduction  
7.2 Basic access  
7.3 Advanced application access  
7.4 Advanced human access  
7.5 Other technical concerns  
7.6 Public relations concerns  
7.7 Summary

8 Description Logics Systems  
*R. Möller, V. Haarslev*  
8.1 New light through old windows?  
8.2 The first generation  
8.3 Second generation Description Logics systems  
8.4 The next generation: Fact, DLP and Racer  
8.5 Lessons learned
